Algorithm to print all the node number having data parts containing even value

Algorithm

Printeve(start)

If start=null
Print "list is empty"
exit
end if

ptr<-start
Repeat

If data->ptr%2=0
Print data
ptr<-link->ptr
end if

If ptr=null
exit
end if
end repeat

end

Representation of algorithm

3	100

start

4	200

6	300

5	400

4	200

Data part
(even)
